AWARE**

A P3 Generator Services Monitoring Solution

GENERATOR

**Does the very word make
Your team nervous?**

P3GenAWARE Eases Generator Anxiety

WHAT IT MEANS TO YOU

Perfect for facility managers by providing visibility into the health of emergency power systems, especially during crisis situations.

- ▶ Real-time generator information sent directly to your smartphone or desktop.
- ▶ Alerts your team of potential problems before they become big concerns.
- ▶ Enables quicker service response time.
- ▶ Increases efficiency of technician dispatch.
- ▶ Saves money by avoiding unnecessary technician call-outs.
- ▶ On-line records storage allowing better management of state compliance mandates.

COMPATIBLE WITH ALL MAJOR GENERATOR MAKES AND MODELS

P3GenAWARE equipment has been recognized as an M2M industry leader for nearly 20 years dedicated to enhancing the reliability of generators.

The **P3GenAWARE** system prevents 95% of fail-to-start events by immediately sending alerts when common problems like these are detected:

- ▶ Low Fuel Level
- ▶ Low Battery Voltage
- ▶ Missed Exercises
- ▶ Low Coolant Level
- ▶ Uncleared Alarms
- ▶ *And Many More!*

A Pro-Active Approach to Generator Maintenance!

- ▶ Wireless Monitoring 24/7/365
- ▶ Data Archiving and Export
- ▶ Weekly Activity / Status Reports
- ▶ P3GenVIEW, A Secure Web-Based Management Portal
- ▶ Time / Date Stamped Event Logs
- ▶ Instant Alarm Notifications
- ▶ 'Over-the-Air' Technology
- ▶ Provides Automatic System Updates
